EDUCATION

BSc Computer Science, University of Leeds *Sept 2025 – June 2028*

EXPERIENCE

Intern, Swiftleads AI *Aug 2026 – Present*

Dubai, United Arab Emirates

- Built and deployed AI agents for automated outreach across Instagram and an AI call center, targeting real estate leads
- Oversaw a portfolio of lead-management and call-center agents in live operation, diagnosing and repairing failures independently
- Gained hands-on proficiency in Claude Code, Cursor, Supabase, and Vercel, later applied to launch Sparkbox

Data Analyst Intern, Akademos Research Consultancy *Aug 2025*

Dubai, UAE & Karachi, Pakistan

- Conducted competitor research on major real estate societies, validating data from Zameen.com and Graana.com
- Built Power BI dashboards and used Python (Pandas, Matplotlib) for data cleaning and visualisation

Sales Assistant (Full-Time), Pentagon Solutions *May – June 2025*

Leeds, West Yorkshire, UK

- Represented the National Deaf Children's Society through face-to-face direct sales and fundraising campaigns
- Developed customer acquisition, live pitching, and relationship-building skills in a fast-paced, target-driven environment

Marketing, Recruitment & Communication Intern, Heriot Watt University *Aug 2023*

Dubai Campus

- Conducted a competitor analysis presentation assessing the university's market positioning
- Devised a targeted social media plan for the School of Mathematics and Computer Science

PROJECTS

Sparkbox *Cursor, GitHub, Vercel, Supabase, Adobe Photoshop — Aug 2026 – Present*

Leeds, West Yorkshire, UK • sparkbox.lol

- Founded and built a multi-game party platform (Spyfall, Mafia/Werewolf, Impostor) in one product, unlike single-game competitors
- Developed and deployed the full web app independently (Cursor, GitHub, Vercel) and implemented Google AdSense monetisation
- Designed the brand identity and logo in Adobe Photoshop; led a UK-focused growth strategy via personal and community networks

Structural Innovations to Combat Aerodynamics on Skyscrapers *ANSYS, CFX, Excel — Jan 2025*

University of Leeds

- Researched architectural adaptations used in modern skyscraper design to reduce aerodynamic drag and vortex shedding
- Used ANSYS to simulate wind tunnel tests, modelling tapered, twisted, and rounded structural forms under aerodynamic conditions
- Analysed simulation results to identify shapes with optimal wind performance and structural efficiency

LEADERSHIP

Committee Member, Pakistani Society *Sept 2025 – Present*

University of Leeds, UK

- Contributed to large-scale event organisation for the UK's largest Pakistani society, including a 300+ attendee event with artist Zack Knight
- Secured corporate sponsorships (e.g. Oodles) through proactive business outreach and stakeholder management
- Coordinated recurring football/cricket fixtures and delegated tasks across volunteers on event days
